

**Who we are!!**

The Navigators is an international interdenominational organisation seeking to promote Christian discipleship around the world.

The aims of The Navigators are:

**To evangelise:**

To help bring men and women into a personal relationship with Jesus Christ.

**To establish:**

To encourage growth through individual and small group care and in-depth teaching.

**To equip:**

To develop growing Christians to pass on to others what they themselves are learning in Christian discipleship and ministry.

**To send:**

To send spiritually qualified labourers to serve in various harvest fields of the world.

The Navigators is not a church. They minister to people from different groups, cultures, churches and backgrounds in institutions of learning, marketplaces and different communities.

Individual help, follow- up groups, small group Bible studies, training programmes, seminars, workshops and conferences are among the forms through which the Navigators disciple and develop people.

**What we do!!**

Navigators spend hours with new believers individually and in small groups. They study the Bible, pray, witness, counsel and teach. It is a ministry of individual, intensive training on a person-to-person basis.
